

# Trans Health Project

*Working for Transgender Equal Rights*

## Health Insurance Medical Policies

### Gender Dysphoria / Gender Reassignment

---

Virtually all major insurance companies recognize that transgender-related medical care is medically necessary and have a written policy describing their criteria for when plans they administer will cover it. Below is a list of such policies.

The fact that an insurance company is listed below *does not* mean that your particular plan will follow these guidelines. You must [look to your individual policy](#) to determine if transgender care is covered or excluded. Only if it is covered will the policies below apply.

Medical policies are frequently updated. Please [contact us](#) if your company's policy is not listed or is out of date.

---
